

Arikah – 2008

Arikah is described as an energetic, outgoing, and intelligent child. She is a wonderful artist and uses her art work to express her creativity. Doing arts and crafts, playing team sports, watching cartoons and the Discovery Channel are some of the things Arikah enjoys doing in her free time.

Arikah is in the third grade and she loves to learn. She benefits from a behavior plan in the school setting as well as individual counseling.

Arikah will do best in a one or two parent home where she can be the only child or where children are the same age as her; however, all family types will be considered.

For more information on Arikah or the adoption process please contact Tracey Somers at tsomers@dcfs.nv.gov.
